"THE OCEAN IS ALIVE!"

● **Week 1:** July 10 to July 14

The ocean is the earth's largest biome, filled with fathomless opportunities to explore its beauty, power, and creatures. Each day of Week 1, campers will be immersed in sea-related activities and projects during their trips to the Variety Campz Theme & Art Room, Learning Center, and Outdoor Adventure Zone where they will be inspired by stories, and engaged in play and creative expression.

"DINOSAURS & REPTILES COME ALIVE!"

● **Week 2:** July 17 to July 21

Dinosaurs and reptiles become the springboard for art, learning and play-based adventures during Week 2 of Variety Campz. Every day, campers will dig deep into the fossil record in search of clues about how dinosaurs looked and lived. In addition, they will scale mountains of fun-facts about modern reptiles, and even meet some in person, learning about the unique role they play in nature as well as their body parts from tongue to tail.

SCIENCE IS FASCINATING & FUN!

● **Week 3:** July 24 to July 28

Looking at nature through the eyes of a scientist, opens a world of opportunities for wonder and discovery. Variety Campers become nature spies during Week 3, learning about things great and small as they explore the natural world through observation and experimentation. Special guest scientists and daily on-site experiments ensure that this week will be filled with an element of excitement!

THE ALOHA SPIRIT LIVES!

● **Week 4:** July 31 to August 4

Variety Campers will travel to a tropical paradise in their art, learning, and play-based adventures during our 4th and final week of camp. Campers will be literally and figuratively swimming with luaus and leis, tropical foods, colorful plants, and beautiful land and sea-based creatures during this fun-filled week.
